COACHBUILDER INFORMATION UPDATE

Date: December 11, 2013
Bulletin Number: XTS 27
Subject: Mercury Information Label

The Oshawa Assembly Plant currently installs a mercury information label on select vehicles. The label is only released to be installed on vehicles going to (ordering) dealers in states that require this label: Connecticut, Louisiana, Maine, Maryland, Massachusetts, Minnesota, New York, Rhode Island and Vermont.

Coachbuilders can create their own label or purchase the GM label for vehicle conversions being sold in states requiring this label. The part number for the GM label is 92229620. The wording on the GM label is:

This vehicle may include mercury-containing devices installed by the manufacturer:

- *High intensity discharge headlamps*
- *Back-lit instruments*
- *Video display screens*

Remove devices before vehicle disposal. Upon removal of devices, please reuse, recycle or dispose as hazardous waste.

Please call Ray Bush at (313) 667-8682 if you have any questions.
